HOW DOES IT WORK: You just show up wearing white and we do the rest! As you sprint, jog, waddle, or leisurely stroll along you will be bombarded with bright colors that transform a group of ordinary runners into a moving rainbow. The color that you will be showered in is completely safe and washes off easily. If you don't think you can beat your friends with speed, see if you can be the real winner by coming out of the race covered head to toe in a vibrant camouflage of color. Costumes are more than welcome at the GOODSTOCK COLOR DASH. Wear a tutu, a feather boa, or a fur coat (well maybe not the fur coat)! If you are planning on coming in costume, we do recommend making it as white as possible to ensure you get the most optimal color coverage possible.

Note: Although Volunteers are not intentionally aiming above the shoulders, it is possible you will receive powder to the face. The Color Powder used is basically food-grade colored cornstarch and is 100% natural and SAFE. Participants may choose to wear goggles or sunglasses for their eyes and use a bandana or dust mask for their mouths.
